

# Alabama Resident Head/Spinal Cord Injury Rehab Services Referral

Chapter 22-11C Alabama Code requires Alabama hospitals to submit data related specifically to head and/or spinal cord injuries to the Alabama Head and Spinal Cord Injury Registry (AHSCIR) which is maintained by the Alabama Department of Public Health (ADPH). This referral form was developed to link Alabama residents that have been diagnosed with AHSCIR reportable injuries who are being cared for in hospitals **outside** of Alabama directly with the Alabama Department of Rehabilitation Services.

This form does not take the place of reporting requirements for AHSCIR for hospitals in Alabama, nor does it take the place of the Alabama Trauma Registry reporting requirements for trauma centers.

AHSCIR reportable diagnoses and criteria: <http://alabamapublichealth.gov/atr/reportable-diagnoses.html>
