## Understanding Radiological Threats in Your Community

## WIPP Roadshow

### DESCRIPTION:

- 2 hr course workshop
- Review case and histories of actual incidents involving radioactive material.
- Theft, malicious intent, and transportation accident case studies involving radioactive material will be covered in the workshop.
- Discuss how you can recognize, detect, and protect yourself and the community from radiation contamination.

### TARGET AUDIENCE:

- Firefighters, Hazardous Material teams, Emergency Management, Agency Personnel, EMS, Law Enforcement, and Explosive Ordinance Disposal personnel

### PREREQUISITES:

- None

### DESCRIPTION:

- Waste Isolation Pilot Plant (WIPP) transports shipment of transuranic (TRU) waste.
- Attendees will have the opportunity to see the actual shipping package and become familiar with WIPP transportation protocols.
- Those attending will have an opportunity to speak with representative from the carriers, the Commercial Vehicle Safety Alliance, trainers from DOE's Transportation Emergency Preparedness Program
- DOE representatives will be on-site to answer questions.

### TARGET AUDIENCE:

- Firefighters, Hazardous Material teams, Emergency Management, Agency Personnel, EMS, Law Enforcement, and Explosive Ordinance Disposal personnel

### PREREQUISITES:

- None
